

### BONDS NEEDED

Sir, — Israel Bonds leaders need not be too depressed over the government's pronouncement that their maximum effort is no longer needed due to lower interest rates now available from other money sources.

The Israel Free Loan Association, which provides interest-free loans for housing, small businesses, education and emergency help to Russian and Ethiopian immigrants (\$2.2 million in circulation to over 3,000 immigrants) wel-

comes any assistance.

Hundreds of other reliable worthwhile Israeli nonprofit organizations have waited for many years for a partnership with Bonds donors. This may at long last be the chance to channel some of Bonds donors' effort to non-profit nation-building work in Israel.
